

Getting around:

Walking:

Use your keyboard arrow keys.

Movement/Flying Controls:

These controls will help you move around in Second Life. To use, simply click on the arrows.

They are located under View>Movement Controls.

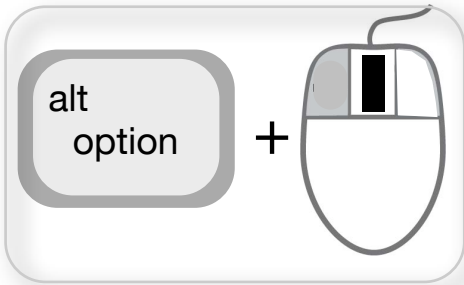

Flying:

Use the Page up key to ascend, and the Page down key to descend.

**Mac users may have to use FN+PG up/PG down.

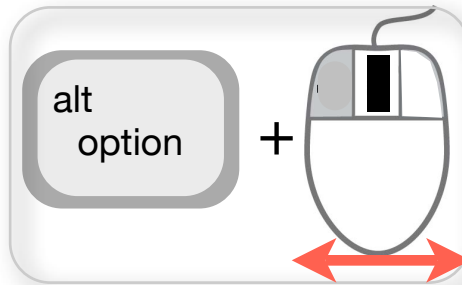

Looking around:

Camera:

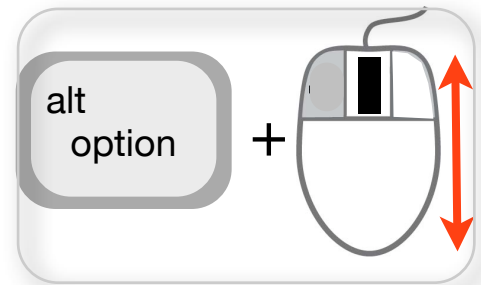

Hold down Alt (or Option on a mac) on your keyboard and left click to move your camera.

Tip: Make sure you are clicking on an object, not the sky.

Rotate:

While holding down Alt (or Option on a mac) and left clicking, slowly move your mouse left and right to rotate your camera 360°.

Zooming:

While holding down Alt (or Option on a mac) and left clicking, slowly move your mouse forward and backward to zoom in and out.

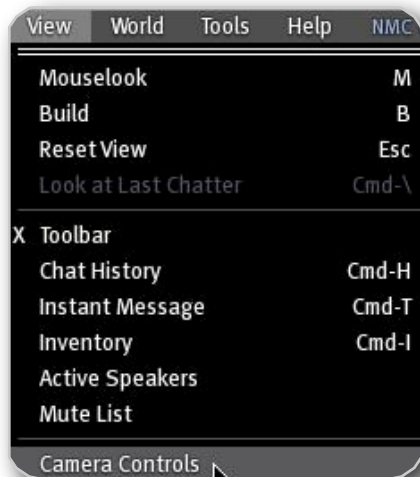

Tip: You can also use the scroll wheel on your mouse while holding down Alt to zoom in and out.

Camera Controls:

These controls will help you look around in Second Life. To use, simply click on the arrows.

They are located under View>Camera Controls.

Chatting:

Chat:

Click on the “speech bubble” icon (highlighted above) at the bottom of your screen to get to the text box (shown to the right of ‘Local Chat’).

Type your text, then press enter to send.

**All local chat is public.

History/Local Chat:

To review chat that you might have missed, click the ‘Local Chat’ button located at the bottom of your screen. A new window will pop-up showing the entire chat.

Private Chat:

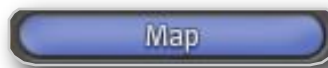

To speak with someone privately, send an Instant Message. Right click on the person, then choose Send IM from the pie menu.

Teleporting:

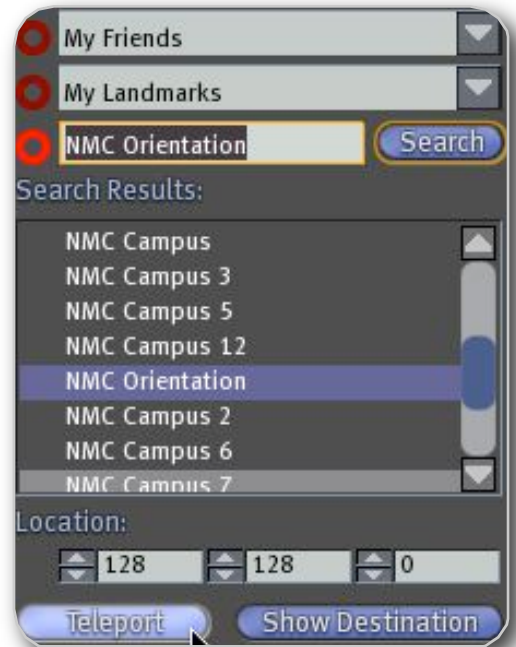

Teleporting:

Another way to travel! When you teleport in SL you immediately move from one location to another.

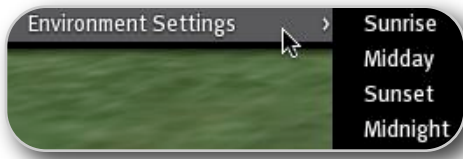

Map:

Clicking the Map button at the bottom of your screen will open the World Map. You can search for a location, highlight it, then choose teleport to go to that region.

Environment Settings:

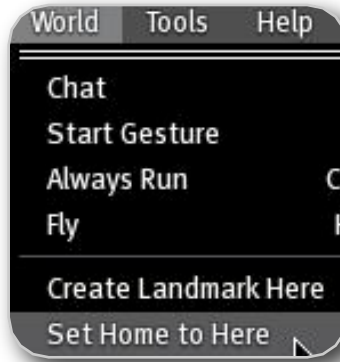

Environment Settings:

If you find yourself in the dark, you can force the sun to a different time of day.

Go to: World>Environment Settings>

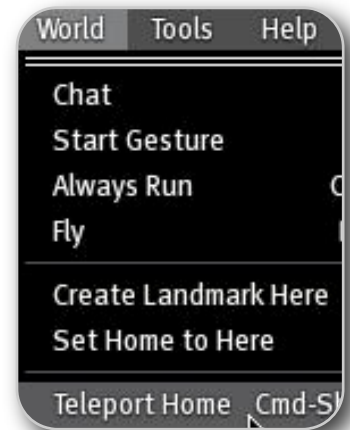

Set Home to Here:

Set Home:

If the land settings permit it, you can set your Home location to your current position inworld.

Teleport Home:

Teleport Home:

Teleports you immediately back to your Home location.

**This is useful if you find yourself in an unsavory location.
